

exp-002 scores three loop versions blind: two scorer streams, two-key unblinding

1 · Design

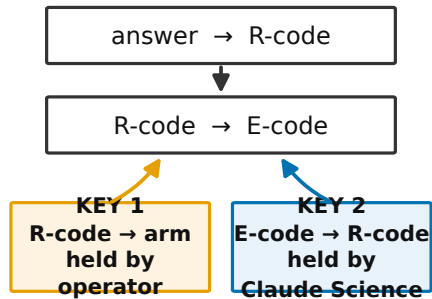

3 arms × 3 questions, 1 per cell (RCB)

	Q1	Q2	Q3
Baseline	■	■	■
v7 loop	■	■	■
v8 loop	■	■	■

9 answers · colour = arm (secret)

2 · Two-key double-blind

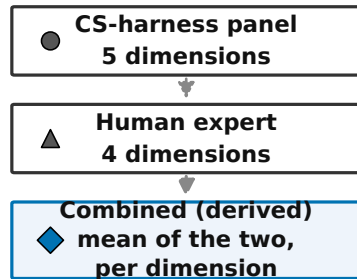

neither key alone reveals the arm

unblinding needs BOTH keys — held by different parties

3 · Blind scoring

each stream sees only E-codes

Combined is the per-dimension mean of the two scorer streams — a derived summary, not a third independent judge.
